Anderson
CENTER AT TOWER VIEW

The Jeffris Family Foundation
Dedicated to Midwestern Historic Preservation

Yes! I want to support the Anderson Center's campaign to **PRESERVE** important historical buildings at Tower View and **CREATE** renovated spaces that will serve our community's future.

This campaign will repair and restore masonry to prevent water damage in four historic structures: the Big Laboratory, the Historic Residence, the Greenhouse, and the Water Tower Pumphouse. It will also support interior rehabiliation of the Big Lab to provide improved classroom space for Tower View Alternative High School and high-quality studios for artists.

The Jeffris Family Foundation has agreed to grant $650,000 to Anderson Center if the Center receives a total of at least $1.3 million in eligible contributions and pledges no later than June 30, 2026. Irrevocable, unconditional, and binding pledges received by Anderson Center on or prior to June 30, 2026 count toward the Jeffris Family Foundation challenge grant so long as they are payable no later than June 30, 2028. Pledges exceeding $487,500 may be subject to additional restrictions.

In support of the restoration of the Big Laboratory, the Historic Residence, the Greenhouse, and the Water Tower Pumphouse, I/we hereby irrevocably and unconditionally pledge the amounts listed below toward the restoration project. Please apply the pledge toward the Jeffris Family Foundation challenge grant.

$_____ is enclosed with this pledge form

$_____ in the remainder of 2023

$_____ in 2024

$_____ in 2025

$_____ in 2026

$_____ in 2027
